

Shaping the safest work scenario for techies through 100% vaccination

Greetings from Kerala IT Parks

Let's start with the most happening event in Kerala IT Parks.

Kerala's IT sector has been relentlessly continuing its efforts to overcome the constraints of the pandemic and return to normalcy in the safest way possible. As part of this endeavor, all major IT parks of Kerala, namely Technopark, Infopark & Cyberpark, along with their satellite parks are conducting their 2nd vaccination drives for employees and their families in full swing. The aim is to arm the employees with both doses of vaccination to ensure a speedy and safe return to the parks. At this juncture, we'd also love to express our heartfelt gratitude to the Technopark Employees Co-operative Hospital Society (TECHS) for facilitating the drives.

Kerala IT parks to rope in Rs.6000 Cr.

Investment - 1,25,000 job opportunities expected in 7 years

Kerala's IT Parks in Trivandrum and Kochi are working on several large-scale projects and are planning to roll them out in phases within 2-3 years. Once completed, these projects are expected to attract a whopping 6000 Cr investment which will create at least 1,25,000 job opportunities in the next 7 years. You can click this link to know about the expansion plans of Kerala's IT sector.
